

HFMDV

21st Annual Conference & Technical Exhibition

Full-day Healthcare Codes and Standards Program

*Myths and Must Do's - Understanding
the "EC", "EM" and "LS" Chapters*

Thursday, October 7, 2010

*Radisson Hotel Philadelphia, Northeast
2400 Old Lincoln Highway, Trevoze PA 19053
Reservations 215-638-8300*

Who should attend?

Healthcare staff from hospitals, ambulatory care centers, clinics, nursing homes, mental health facilities and other health-related organizations that are required to comply with the Joint Commission *Environment of Care, Emergency Management* and *Life Safety* standards.

Which individuals will benefit from this training?

Accreditation coordinators, safety officers, risk managers, quality management and performance improvement directors, facility and engineering managers, directors of security, staff with hazardous materials and emergency management responsibilities, biomedical engineering managers, fire safety professionals in healthcare, infection control practitioners, and administrative and clinical staff who manage others with *Environment of Care, Emergency Management* and *Life Safety* responsibilities.

Gary D. Slack, PE, CCE

*President, Healthcare Engineering Consultants, one
of our industries leading speakers, will present
practical strategies for compliance and
management.*

HFMDV Conference
CO:PBS, Inc. 1200 Bustleton Pike, Suite 16B
Feasterville, Pa 19053

Program Description:

This one-day program will provide valuable information for those individuals who are responsible for creating effective Environments of Care, Emergency Management and Life Safety programs and must understand the 2010 Joint Commission survey methodology and standards. Information will be provided in a format so that the attendees will be able to implement a practical, continuously compliant program in healthcare facilities to prepare for the unscheduled surveys. Attendees will also receive special guidance in how to understand and interpret the standards, how to apply them to various healthcare settings and how to measure and evaluate the effectiveness of their programs. Information concerning new scoring requirements and interpretation in 2010 will be discussed and strategies for implementation will be provided.

Particular handout materials will include scoring sheets, forms, worksheets, policies and checklists. Specific time will be provided during each section for questions and discussion.

Learning Objectives:

As a result of participating in this program, the attendees will be able to understand the following:

1. How the Joint Commission team will perform and score the surveys.
2. The specific role of each of the survey team members, including the *Life Safety Specialist*.
3. How to prepare for the *Environment of Care, Emergency Management and Life Safety* requirements, including the Survey Planning Session, Life Safety facility tour, "EC" interview and likely "EC Tracers".
4. How to clearly understand the intent of the troublesome standards, rather than the "myths" about them.
5. How to interpret and meet the standards that are frequently cited and misunderstood.
6. How to implement proven survey strategies and meet the surveyor expectations to ensure success.

Program Agenda:

7:30	Registration & Continental Breakfast
8:00	Survey Process Understanding the role of the surveyors, survey scoring system, & organization of the standards
9:30	Break in Exhibit Hall
10:00	2010 Survey Planning "Myths" Troublesome standards, 2011 Focus areas, the Six management plans, and annual effectiveness evaluations
	Facility Tour "Myths"
	<i>Life Safety Specialist</i> facility tour checklist
	Evaluation of the electrical and medical gas systems
12:00	Lunch in Exhibit Hall
1:15	Environment of Care Myths and Must Do's Questions likely to be asked to clinical staff
	The emergency tabletop simulation
	EC Tracer "Myths" & Likely 2011 tracer topics
	Performing and documenting safety and Personal protective equipment
	Security risk assessments
	Hazardous energy, gases and vapors, medication disposal, water and air-borne pathogen programs, PCRA and ICRA
2:30	Refreshment Break in Exhibit Hall
2:45	Myths and Must Do's in Emergency Mgt. (EM) The Emergency Operations Plan (EOP)
	Hazard vulnerability analysis and Level I, II and III disasters, Incident Command (HICS & NIMS)
	Utility And Consumable Timeline Charts
	Six critical emergency management elements
3:30	Myths and Must Do's in Life Safety Mgt. Compartmentalization issues
	Interim life safety measures
	Documentation review of the fire systems
4:30	Questions / Discussion
